Member: Virginia Press Association

LEARNING ENGLISH

Last year the National Council of Teachers of English reported that seventy per cent of the colleges and universities of the nation had to provide remedial work in English for students entering the field of higher learning.

There have been many other indications that the proper reading and writing of our own language is not what it should be in many of the nation's schools. In the age of steel, on the sciences, it is possible that emphasis will not be placed on this problem—the proper reading and writing of the English language.

In an effort to emphasize the needs in this sphere the federal government's Office of Education is looking ahead for incentive programs. But the best approach to the situation is for local and state officials to keep in mind the importance of English in the educational system.

English—an ability to read, write and speak it—helps in every other field of study, or in any business effort. It helps in science, in the study of foreign languages, in mathematics and in all subjects.

Plan to revamp Army sent to Congress.

Attorney General urges pinball curl.

FEBRUARY, 1962

"The trees stand wistful in the square,
Wearing a half-expectant air;
The sky is a slender silver bell,
That waits to sound the knell
Of Winter."

—Anne Mary Lawler

In the United States February is the month of famous birthday anniversaries, and is the last solid stand of Winter in most parts of the country. The word February derives its name from the Latin verb "februare," which means to purify.

The two Americans who are probably recognized throughout the world more than any others, George Washington and Abraham Lincoln, were born in February. Other famous birthday anniversaries which occur during the month are those of Asaph Burr, which occured on the 4th, Charles Dickens on February 7th, William Henry Harrison on February 9th, that of James Russell Lowell on the 22nd, William F. Cody (better known as Buffalo Bill) on February 26th.

February is also the anniversary month of the Battle of Buena Vista, which occurred February 22nd and 23rd, 1847, of the dedication of the Washington Monument, which occurred February 21st, 1885, of the inauguration of Jefferson Davis, which occurred February 18th, 1861, of the destruction of the "Maine," in the harbor of Havana, which occurred on February 15th, 1898, and many others.

It is the month of Valentine's Day, and of the Gasparilla Carnival in Florida. In this month also come Georgia Day and Groundhog Day. But, generally speaking, this is the birthday month of great Americans. Are you among them?

WASHINGTON NOTES

NEW WEAPON

Space scientists have introduced a grim concept of an asteroid bomb, a continent-shattering weapon produced by diverting a tiny planet from its orbit so it would strike the earth.

The weapon may be developed some time after 1970 according to Dandridge M. Cole of the General Electric missile and space vehicle department.

200 MILLION BY '66

The Census Bureau says it expects the United States population to reach 200,000,000 in the fall of 1966.

The population at the beginning of the year was estimated at 185,235,000. The bureau revised its population projections because the country is growing faster than expected.

U. S. FINANCES

Following President Kennedy's request for a $10 million increase in the national debt limit, Senator Byrd (D.Va.) said he would ask the Senate Finance Committee, which he heads, to go into all aspects of Federal spending and taxation before it acts on the boost limit.

The President asked that the debt limit be raised from $289 billion to a record-breaking $308 billion.

NIKITA'S TROUBLES

Soviet Premier is apparently facing difficulties at home, states a United States specialist in Soviet affairs.

The situation has made observers here cautious and not too optimistic because they fear that Khrushchev, pushed by his Stalinist and pro-Chinese critics, might revise his "peaceful co-existance" program and get tougher.

COOL REACTION

A request by the President for standby powers to cut income taxes in a recession received a cool reaction from key congressional leaders.

The standby tax cut idea long has been advocated by some economists as the best way to stop a recession. They claim it would increase buying power much quicker than public works spending.

KNOW THE WEATHER

By E. H. SIMS

Why does a cold front often arrive unexpectedly without warning? Does it move faster than its counterpart, the warm front?

A cold front often speeds along at 25 to 35 miles an hour and gives no high-in-the-sky advance notice, as does the cirrus cloud of a warm front. This is because the cold front, unlike the warm, arrives on the surface before it passes over you high above.

Its leading edge slants backward. Therefore, the first notice you may have is one of gusty chillier winds, and often the cold front produces short, intense showers, followed by colder and clear weather.

Colds fronts arrive all through the year and do not necessarily produce precipitation. In summer you may notice nothing other than a cooling of the weather. This usually means a cold front has passed in unnoticed, bringing with it more pleasant -- and usually drier -- air. In winter the fronts bring with them correspondingly colder weather, as would be expected.

Chinese Reds assail Kennedy as "Fascist."

HEADS CANCER CRUSADE

Sidney S. Kellam, prominent Virginia political leader and business executive of Virginia Beach, has been named 1962 Cancer Crusade Chairman for the Virginia Division of the American Cancer Society.

This is the second consecutive year Kellam has taken over state leadership of the Crusade held annually in April.

In announcing Kellam's appointment James W. Rawles of Richmond, Virginia Division President, said, "We are delighted to have this experienced and stimulating leader at the helm again this year. Mr. Kellam's past efforts on behalf of cancer control in Virginia have been extremely valuable. His belief in the work of the American Cancer Society and his able leadership is an inspiration to all of us who are engaged in the battle against cancer."

Kellam is a senior partner in the Kellam-Eaton Insurance Company of Virginia Beach, and secretary and treasurer of several real estate corporations in that area.

A staunch Democrat, he has been active behind the scenes in Virginia politics for many years. He managed the campaign of Governors John S. Battle and Thomas B. Stanley. He is chairman of the First District Democratic Committee and Democratic National Committeeman from Virginia.

Kellam has also played a leading part in coordinating the work of health groups in the Tidewater Area, and has been associated with the American Cancer Society volunteer activities for several years.

VERA S. C. A.

The regular monthly meeting of the Vera S. C. A. was held January 25th 1962. The president Allen Webb called the meeting to order. Donald Kanipe had charge of the devotion. After roll was called and minutes read we had a program. We all sang songs.

There was no further business so the meeting was ajourned until the 23rd of February.

U. S. reported ready to act against Communists.

Dutch stress readiness for New Guinea talks.

HEALTH AND BEAUTY

During an interview with a mother of six children, some very interesting facts came out. This mother, a pretty woman in her middle forties could easily pass for a woman of thirty-one or two. Her figure was like that of a young girl. Her skin was bright and clear, and so were her eyes.

According to her, it is not difficult to stay youthful and attractive-looking if you start soon enough to keep stomach muscles tight and work to keep off excess weight. If you are overweight now—start right away to do something about it.

This particular lady did not believe in a great deal of makeup. It doesn't disguise fatigue, so getting enough rest is a "must." Trying to operate on too little rest not only takes a great toll on your physical appearance but will spoil even the sweetest disposition.

Many doctors agree that no very important decision should be made if you haven't had sufficient rest. Cleanliness, too, is an all important factor to this busy mother.

She states that she often took two and, during the summer, sometimes three showers a day.

She went on to say that she believes it is very important to look attractive and neat for her family. She has lots of clothes; they are inexpensive, so to buy and care for, so she can always look fresh — even doing housework.

The care she gives her complexion is simple, and based on complete cleanliness. She removes all makeup with a light, non-greasy lotion. Next comes a cleansing with soap and water. She believes it is important to be gentle when cleaning your face because hard rubbing will cause muscles to sag.

She thinks a moderate amount of sun is a tonic for the skin and the hair as well.

The last tip, and the all-important thing drinking is just for a person tant one, is to live a serene life filled with wholesome pursuits. Too much night life and the accompany- in all phases of life is a good rule.

If you're one of the millions of car owners who should get their cars serviced this week, here's good news!

Ford eliminates 10 out of 12 service stops required by most cars!

In a 1962 Ford Galaxie or Fairlane you can go all year—or 12,000 miles—with only two stops for service. This revolutionary new twice-a-year maintenance program—available only in the cars from Ford—frees you forever from the nag-nag-nag of month-after-month servicing. (See chart.) It's the biggest thing that's happened to cars since Ford introduced the 12-month or 12,000-mile warranty.* See your Ford Dealer soon—and start saving time and money with the convenience of twice-a-year maintenance. It's another Ford first!

MANUFACTURERS' SUGGESTED SERVICE INTERVALS FOR AMERICA'S BEST-SELLING CARS

MAKE	BALANCE AND ROTATE TIRES	CAR 'A'	CAR 'B'	CAR 'C'	CAR 'D'	CAR 'E'	CAR 'F'	CAR 'G'	CAR 'H'
	4,000 MILES		X	X				X	X
	6,000 MILES		X	X				X	X
	8,000 MILES		X	X				X	X
	6,000 MILES		X	X	X	X	X	X	X
	6,000 MILES		X	X				X	X
	6,000 MILES	*	X	X				X	X
	7,000 MILES		X	X				X	X
	8,000 MILES		X	X	X	X	X	X	X
	8,000 MILES		X	X				X	X
	10,000 MILES		X	X				X	X
	11,000 MILES		X	X				X	X
	12,000 MILES	*	X	X	X	X	X	X	X

There service intervals are based on the requirements for all passenger, chassis lubrication, engine lubrication, etc., as specified by the manufacturer at the owner's request for each car.

*Ford Motor Company warrants to its dealers, and its dealers in turn, warrant to their customers as follows: That for 12 months or for 12,000 miles, whichever comes first, free replacement, including related labor, will be made by dealers of any part with a defect in workmanship or material. Tires are not covered by the warranty, automobile adjustments will continue to be made by the tire companies. Owners will remain responsible for normal maintenance service and routine replacement of maintenance items such as filters, spark plugs, and ignition points.
